# Skid Steer Protection

Heavy Equipment Armor is the first and only company dedicated to building ballistic door, & top guard, for skid steers. Whether your machine is moving dirt with a bucket, lifting materials on the job site, masticating, demolition, or doing a specialized job with an attachment.

## Skeleton Door Guard

Increase Protection with our **Skeleton Door Guard** for **Caterpillar Skid Steers**

**AVAILABLE IN 2 STYLES:**  
**2.5X5" OR 5X5"**  
(PART# CAT-DG2.5 OR CAT-DG5)

**Easily mounts to the factory door.**

**No modifications to carrier required.**

**Only works with factory Caterpillar polycarbonate door, on the Caterpillar skid steer "D, D2, & D3" models.**

**Fits current CAT "D, D2, & D3" model skid steers, compact track loaders, and multi terrain loaders:**

226D, 232D, 236D, 239D, 242D, 246D, 249D, 257D, 259D, 262D, 272D, 277D, 279D, 287D, 289D, 297D, 299D, 272D2, 272D2 XHP, 287D2, 297D2 XHP, 299D2, 299D2, XHP, 226D3, 232D3, 236D3, 239D3, 242D3, 246D3, 249D3, 257D3, 258D3, 262D3, 272D3, 272D3 XE, 279D3, 289D3, 299D3, 299D3 XE, 299D3 XE Land Management

### CAT Skid Steer Skeleton Door Overview:

There are two different skeleton steel front door guards, the only difference between the two is the screen spacing. They both easily mount up to the factory CAT polycarbonate door, on the CAT Skid Steer "D3" Models. Installation time is approximately 1 hour.

The Skeleton Front Door Guard for CAT skid steers installs easily onto the skid steer using factory hardware from your original door, including hinges, lock system and emergency escape system. Integrated push bumper system spreads weight of door over cab, keeping weight off the hinges.

SKELETON FRONT DOOR GUARD fits most "D, D2, & D3" model skid steers. Be safe knowing you have added protection to your front poly-carbonate door.

PROTECTION YOU CAN COUNT ON!

## Our Story:

Heavy Equipment Armor is the first and only company dedicated to building ballistic window/door, top guard, and cab guard products for heavy equipment. Whether your machine is moving dirt with a bucket, lifting materials on the job site, masticating, demolition, or doing a specialized job with an attachment; You can count on Heavy Equipment Armor's UL 752 Rating ballistic window and cab guards protecting your assets! Our enhanced guarding will be there to help protect the operator and the heavy equipment.

Heavy Equipment Armor was created because of the need for additional guarding on heavy machinery like Excavators and Skid Steers. These machines are increasingly being tasked as stand-alone machines because of their ability to carry multiple different tools to get the job done, and they dominate the modern job site.

Our enhanced products like our cab guards for excavators and skid steer armor add another safety protection level for the operator and the machine. A company's most valuable asset is protected – **It's PEOPLE**. This, in turn, reduces injuries which reduce business costs and disruption. Our heavy equipment protection also improves work quality. Insurance claims decrease in safe work environments with Heavy Equipment Armor's enhanced cab guards and ballistic grade UL 752 windows.
