Why Heavy Equipment Armor?

Who is Heavy Equipment Armor?

Heavy Equipment Armor was founded by the owner of Advanced Forest Equipment, Engineer of the original disc mulcher for skid steers. Being a mulching contractor for over 36 years, and safety always being a priority, he designed and built custom guarding to protect his operators and equipment. Eventually, this guarding became available to purchase through Advanced Forest Equipment. Due to the inquiries received about heavy equipment guarding, it became apparent there was a need in the industry that was not being filled; Heavy Equipment Armor was established. Guarding that was available through Advanced Forest Equipment is now under the HEA name. With new guarding products continually being engineered and coming to the market.

What types of guarding are currently offered?

HEA manufactures steel guarding and UL752 Level 1 ballistic guarding for CAT skid steers and excavators. Bolt on steel front door guards and cab guards are available for skid steers. HEA manufactures enhanced guarding for both skid steers and excavators.

For excavators, we deliver a bolt-on line of guarding products that include steel front window screens, top guards, and rock guards, and a bolt on UL752 Level 1 ballistic front window. Custom cab guard packages include running boards, light kits, box guards and more are available. Custom guarding is fabricated to the machine at our Northern Idaho facility.

What makes HEA different from other guarding manufactures?

HEA products are designed to fit each model of machine specifically. Our products are not a universal fit or cookie cutter fit. This allows for the best potential fit. HEA polycarbonate products are made of UL752 Level 1 polycarbonate that can stand a ballistic attack. They are not milled or drilled. Most polycarbonate, offered by other companies are not ballistic rated, they are only impact rated and have been milled and drilled to fit hinges and handles. Milling & drilling polycarbonate leaves it susceptible to micro-fractures.

CUSTOM EXCAVATOR GUARDING OPTIONS

CUSTOM EXCAVATOR GUARDING

We offer complete fabrication of custom guard packages to guard and protect your employees and machines.

- **PART #EFGPBW** - Enhanced Cab Guarding with UL752 3/4" Level 1 Ballistic Defender Window
- **PART #EFGP** - Excavator Cab Guarding with 2x2" steel screen
- **PART #ELK** - Light Kit (6) LED lights on cab guard & (4) LED Lights mounted on boom guard
- **PART #ELRB** - Logger style running boards
- **PART #ESP** - 1 piece port hole skid plate
- **PART #EBG** - Right side logger style box with (2) LED lights

PART #ELRB
Logger style running boards

CUSTOM EXCAVATOR GUARDING OPTIONS

ENHANCED BOLT-ON BALLISTIC WINDOW *PART #EFGPBW*

The Defender Ballistic Window is produced with a UL752 rated Level 1, 3/4" ballistic polycarbonate. To receive this rating the polycarbonate must be able to withstand a ballistic attack from a 124 grain, 9mm FMJ lead core projectile with a 4" shot spacing from 15 feet.

The **ENHANCED BOLT-ON BALLISTIC WINDOW** will attach to the excavator cab through factory mounting locations making it easy to install and remove for later use.

EXCAVATOR CAB GUARDING

PART #EFGP

For added protection to your front polycarbonate window

This steel safety screen is available as a bolt on option.

PLEASE NOTE: This guard is intended as a brush guard only. It is not a certified FOPS/ROPS guard.
